

Japan College of Rheumatology Embargo Policy

Embargo Policy for Presentations and Abstracts at Annual Meetings of the Japan College of Rheumatology (JCR)

- * Communication and/or dissemination of accepted abstracts and information contained therein for presentations at the JCR Annual Meeting is prohibited during the embargo period; i.e., until the presentation at the JCR Annual Meeting. After the presentation, JCR will allow **dissemination and submission** to any other third party.
- * In case you disseminate your abstracts or their contents, the reference must be clearly indicated and no changes are allowed. When disseminating the lecture/abstract in other languages, particular caution should be used to ensure that no inconsistencies arise in the content due to translation.
- * JCR's permission is required prior to dissemination and/or submission to any other third party.
- * If you wish to submit your presentation to another academic society within the embargo period, you need to contact JCR in advance to withdraw your presentation.

In case of any violation of the above-stated policies, JCR, the copyright holder, reserves the right to take appropriate action, including withdrawal of the concerned abstract.

“Encore” presentations at the Annual Meeting

JCR will permit “Encore” presentations under the following conditions.

- * Acceptance is limited to presentations of the meeting held outside of Japan in a different language within one (1) year prior to the last date scheduled (convening) of the JCR Annual Meeting. (Not applicable to the congresses held in Japan except the congress held in Japan hosted by APLAR and other international societies where JCR belongs)
- * The abstract title clearly indicates that it is an “Encore” presentation (for example, add “encore presentation” to the end of the title).
- * Contents, study data and overall interpretation must be reflected faithfully to the primary presentation.
- * Presenter must ensure to obtain permission from the copyright holder of the primary presentation under presenter's responsibility when needed.
- * Information of the primary presentation (name of the congress, abstract title, date, etc.) and permission granted or not must be included in the JCR presentation slides. If no permission is needed, then "None" should be inserted in this section.
